

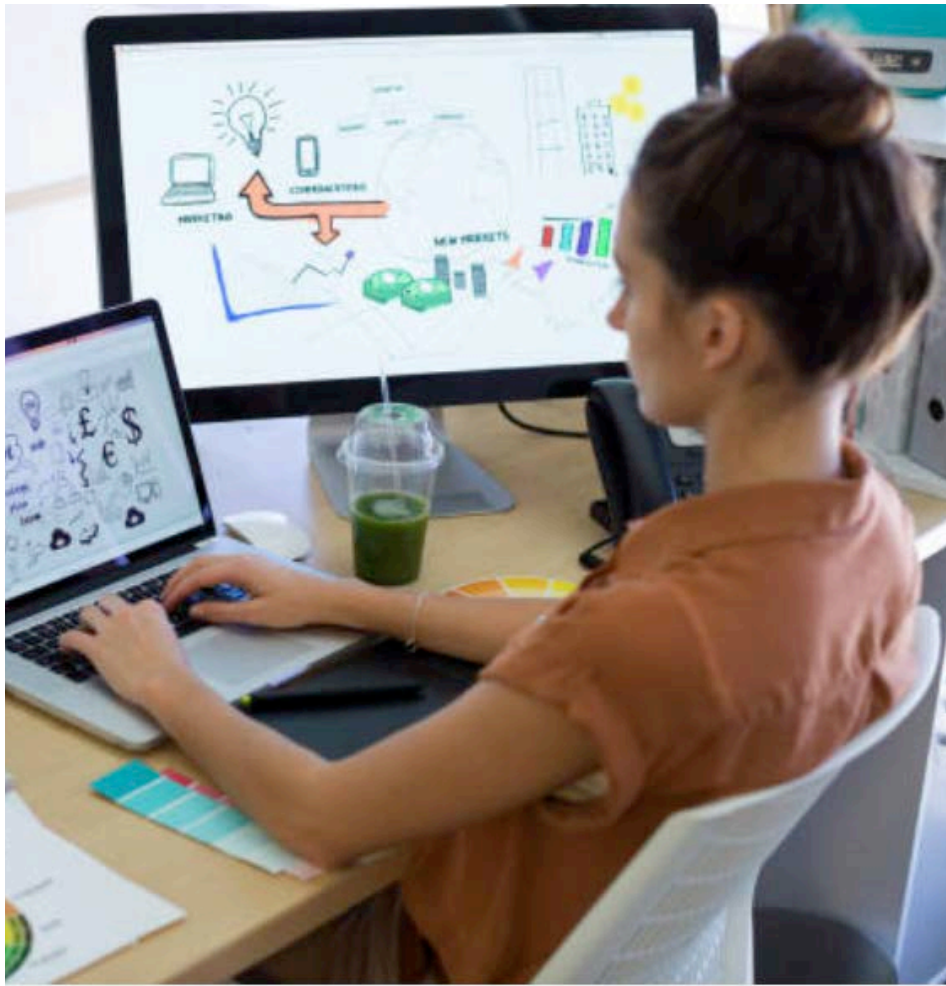

GRAPHIC
DESIGN FOR
BEGINNERS
LEVEL 1

MAYBE YOU HAVE NEVER STUDIED GRAPHIC DESIGN BEFORE, BUT HAVE PLAYED AROUND WITH DESIGNING ON YOUR COMPUTER AND HAVE FOUND THAT THIS WOULD BE A FANTASTIC CAREER CHANGE FOR YOU. WELL, **THIS ONLINE COURSE HAS BEEN DESIGNED TO HELP YOU TO BEGIN AND PROGRESS** IN THE GRAPHIC DESIGN PROFESSION WITHOUT IT BEING TOO INTENSE.

IS THIS COURSE FOR YOU?

This is a beginner's level course and is suitable for those who have never studied or practised Graphic Design before. Maybe you have been using Canva or similar basic graphic-assisted programmes and want to learn how to create from scratch like a real Graphic Designer.

Suitable for:

- Employers who wish to increase the skills of their staff in this area,
- Anyone who wants to start learning about Graphic Design,
- Marketing Assistants,
- Project Officers,
- Secretarial or Administration Staff,
- Individuals who would like to become a Graphic Designer.

What you will learn

This beginner's course will help you to understand the basics of graphic design.

- You will be shown how to use the Adobe software at a basic level,
- Producing simple publications such as Posters, Leaflets, Diagrams, logo designs etc,
- The basics of page layout,
- Working with images,
- Working with Colour,
- Working with text & typography.

All of these are done by carrying out projects which you will work on with your course tutor/ professional design coach. This is over and above your course module studies.

COURSE STRUCTURE

There are 6 modules in this course to be completed online through our online campus.

You will be given a Pre-Course Assessment once you have enrolled in this course. The reason we have a pre-course assessment project is to help us make sure that this is the right level for you. You might find that the level you have enrolled in is too difficult, or you require more in-depth studies. It is easy for us to transfer you to another level in the 3 levels of our Graphic Design courses at no extra cost. Your Course Tutor/Design Coach will be able to help you with this once you have completed your pre-course assessment project.

Each module will go through the 6 main areas so that you can learn not just the basics of graphic design, but also ways in which to produce effective and creative designs.

MODULE ONE: Design Basics

Before you can fully understand what is involved in graphic design, you will need to know the basis of design. In this first module, you will be taken through 6 very important steps which will help you to understand and plan your designs from the very beginning.

MODULE TWO: Elements

The elements covered in this module are Images, Files and Typography basics. You will work on a couple of projects with your Design & Training Coach to help you understand and use these elements in effective ways.

MODULE THREE: Colour

Working with and using colour is a very important attribute when designing, so it is very important to be able to use these effectively. You will venture into different formats of colour used in this module when you carry out a number of projects and assignments to build your confidence in this area.

MODULE FOUR: Pre-Press

Now it is all about getting your designs ready for production, which is called 'PrePress'. There are a lot of things to consider before sending your designs to the printers for production. Here we will look into the areas included in this process to get the best possible finish and to clear any problems prior to the production process.

MODULE FIVE: Production

The moment of truth is when your design is going to be printed, so again you will extend what you have learned in module 4 by covering the main areas when it comes to printing, how it will be printed and what it is being printed on.

MODULE SIX: Finishing

This is the creative side of the production of your design. You will investigate different options available to you in the finishing of your design and how it can look with different effects and materials applied - a great way to extend your creativity.

On successful completion of this course, you will be awarded our Level 1 Diploma Certificate.

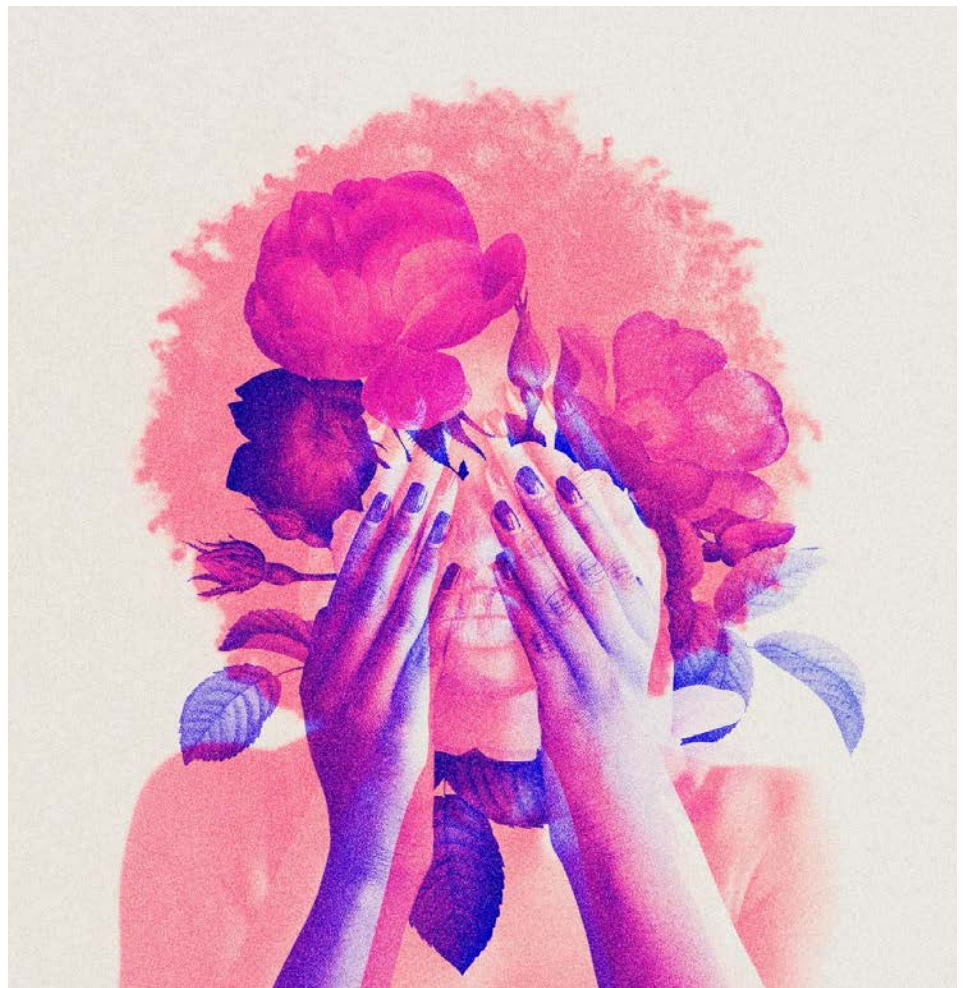

COURSE PROGRESSION OPTIONS

Once you have completed this course level, you might be eligible to progress onto our **Graphic Design Level 2 Diploma Course**.

Please read through the entry requirements for this course on the next page before applying.

COURSE FEE: £650

AVAILABLE NOW - ENROL AT ANY TIME OF THE YEAR

ENTRY REQUIREMENTS

Once you have enrolled on this level 1 Diploma Course and your campus student account has become active, you will then be able to arrange with your one-to-one training coach a day and time for your first Microsoft Teams lesson. It is a good idea to set the same day and time for each week for the duration of this course. You will then work through a module each week. The aim is to complete this course over 6 -12 Months.

SOFTWARE:

For this course, students should have one or all of the following: **Adobe Creative Suite** or individual programs such as **Adobe Illustrator, InDesign, Photoshop, and Adobe Acrobat Pro. Affinity Designer** is also acceptable for this level.

TIME:

This course has been designed to be completed in 6-12 months with some flexibility depending on the time available to each student. The maximum time for completing this course is 12 months. Many students complete this course within 6-8 months, but it depends on how much time you have available each week. If you are working full-time time we can easily help organise your study time with you. Most of our students are in full-time employment, so don't worry if your time is restricted. On average, you would need between 5-10 hours each week to commit to this course, but we do allow for flexibility. Your course tutor/professional design coach will help you with your study plan once you have started this course.

STUDY MATERIAL:

Study material will be supplied to you digitally when you start on our campus, plus our other facilities. If you would like a recommendation or additional learning material, we can suggest these for you, but you will find the material we provide will be more than enough for this course.

COMMUNICATION:

It is important that you have access to the Internet and Microsoft Teams with a webcam, as you will need these for your one-to-one Teams sessions. Using Teams means you can record the session, plus the ability to share screens and send files during these live sessions.

KNOWLEDGE & SKILLS:

You should have some basic knowledge of the design software, but you will be given lessons on how to use the relevant software throughout this course. Make sure you have access to the software mentioned in this section. If you have a portfolio of any work you have done previously, please send a link to this with your course application form.

YOUR ATTRIBUTES:

An ability to be self-motivated, open to new ideas, along with a good eye for design. You should also be committed to this course and eager to learn.

ENTRY QUALIFICATIONS:

None required for this course, but you must be able to communicate, read and write in English effectively.

HOW TO ENROL

1. Complete our Course Application Form, which you can download from our 'ENROL' page on our website.
 2. Print off the application form and complete it in handwriting, making sure you complete all of the sections. Make sure you read through the terms and conditions before signing in all areas of the application form, and don't forget to include a photo of yourself for our online campus profile identity.
 3. Scan or take a photo of the completed application form and email it back to us at **admin@creativedesignschool.com**, and we will inform you if your application has been accepted. Do not make any payments until your application has been accepted. You will receive an email from us telling you if you have been accepted or not.
 4. Once your course application has been accepted, we will contact you to let you know and then give you instructions on how to make your full course payment, which you will need to pay before enrolment can be completed. Payments are made using PayPal or by Bank transfer (*depending on whether you are located in the UK or internationally*). If your company or organisation is paying for your course, you must inform them that payment must be received before your student account is set up.
 5. Once we have received all of the above, we will then set up your student account on our online campus, which can take up to 5 working days, but we aim to try and complete this sooner when possible. You will then receive your username and password, which will allow you to start your course.
 6. You will also be contacted by your one-to-one tutor, who will arrange a Teams lesson with you to discuss your course in detail.
- Don't forget to answer all of the questions on the course application form. Anything missing will result in your course application being rejected.**

FAQ'S

Do I have to complete the course on a fixed timescale?

All of our courses are flexible, even though we state a completion time, this is only to give you an idea of how long you could spend on your course. But, is it totally up to you how much you study and when you complete your assignments and course?

Who can I contact when I have questions or problems with my course?

You will be given the contact information of your tutor, whom you can contact at any time through your Student Account on our online campus and through the use of our mobile App.

What if I don't have Microsoft Teams or a webcam?

If you don't have Teams and a webcam, you can arrange virtual support through your Student Account. This is done by using the live messaging service on the online campus and our mobile App.

Do you have to have qualifications to study any of these courses?

There is a clear entry requirement for each course we deliver. You will see all of the entry requirements in this course guide on the previous page.

Can I get additional help with my studies if I have a problem with them?

Yes, that is the aim of the Creative Design School; we are here to help at all times. You can ask questions through your student account messaging app or arrange an online Teams consultation.

Is there an exam at the end of the course?

Yes, there will be an exam. At the end of this course, you will be awarded a CDS Diploma Certificate for this level of successful completion.

Where do I get my assignments and study material?

All of your study material and assignments will be made available through your student account, plus our other learning facilities.

When do I start my courses?

Once you have enrolled and made your payment, you will have full access to your course within 5 working days - when you start is up to you.

How do I get my Username and Password for the online campus 'Student Account'?

This is emailed to you directly once we receive your enrolment payment online and your application has been processed, which can take up to 5 working days, but we aim to do this sooner when possible.

JOURNEY TO BECOMING A UNIQUE
GRAPHIC DESIGNER**

MAIN GRAPHIC DESIGN DIPLOMA LEVELS 1-3

There are different levels available for our diploma courses: Beginners Level 1, Level 2, which is for those who have studied or trained in these subject areas before and Level 3, which is the advanced level.

Each diploma course comes with modules that can be completed in 1 to 2 months (but this can be flexible depending on your circumstances).

You will be given your very own one-to-one tutor/professional design coach, who will work with you throughout your course. During each module, you will be given one 45-minute Teams tutorial each week or every 2 weeks, depending on the time you have available.

GRAPHIC DESIGN FOR BEGINNERS - LEVEL 1

Completely for beginners in graphic design. You will start at the very basic stages, then be taken to a confident level of understanding and carrying out effective graphic design elements. You will also be shown how to use the related software at the basic level. Once completed, you will be able to progress to Graphic Design Level 2.

GRAPHIC DESIGN - LEVEL 2

If you have some experience in graphic design, using the related software at a basic level, then this course is for you. It will structure what you already know and introduce you to what you don't have experience with. By the end of this course, you will be able to carry out with confidence a variety of graphic design skills. The next step of progression from this course would either be the advanced level 3 or onto one of our specialist courses.

ADVANCED GRAPHIC DESIGN - LEVEL 3

This course is set at a level for those who wish to focus on increasing their level of graphic design to fully professional attributes. Covering every level of the profession, you will focus on specific projects and assignments to increase your skill levels. To enrol on this course, you should be experienced in using Adobe Creative Suite software, especially Illustrator, InDesign, and Photoshop. Upon successful completion of this course level, you will be given a one-year free registration as a Professional Graphic Designer with the PGDA.

We will take you through every step of the way throughout your course. Helping you to develop new skills and to become creative and unique.
